DETAILED ACTION

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the claimed method (i.e. claims 1-5) or system (i.e. claims 6-13):

The closest prior art, JP 7-254387, discloses using differing templates chosen based on a correlation value of scanning conditions, whereas the claimed invention relies on choosing a second template after a failed pattern recognition test using a first template.

Applicant's invention is particularly advantageous in that the method and system can account for changing image contrast due to specimen charging in e-beam or ion beam wafer/slider/mask inspection and measurement tools. Prior art such as JP 7-254387, for example, would not account for changing image contrast due to sample charging, (yet the '387 invention would account for changing of scanning conditions, based on a correlation value of template to scanning conditions).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).
